Classroom to Career: Strategies to Foster and Empower Underrepresented Students in Biomedical Research and Medicine

March 9 | 11am – 1pm
Zoom Mtg ID: 838 9624 9966
Passcode: 737626

The goal of this event is to have an open discussion of educational programs that create a ‘pipeline’ for URM students from high school to graduate and medical school and to discuss strategies to connect these programs to promote longitudinal success.

Learning Objectives:
1. Discussion of strategies for empowering underrepresented minority students to confront challenges at each career step from college to medical and graduate school
2. Discussion of successful strategies for recruitment of underrepresented minority students
3. Discussion of strategies for retention and transition of underrepresented minority students from one career step to the next

This event has been approved for 2 hours of UArizona College of Medicine, Tucson DEI credit.
